

Space: to boldly go and see what happens  
(or maybe rather not)

Absolventská GJH prednáška

[michaela.brchnelova@kuleuven.be](mailto:michaela.brchnelova@kuleuven.be)

# Krátký úvod

- do 2013 : basketbalový gypel na Hubeného 23
- 2013 - 2015: IB GJH
- 2015 - 2020: TU Delft
  - BSc, MSc aerospace
  - 2015-2017: DARE
  - 2017: ESA, Noordwijk
  - 2019: DLR, Goettingen
- 2020 - 2024: KU Leuven
  - PhD plasma mathematics

Čo treba k úspešnej vesmírnej misii?

# Čo treba k úspešnej vesmírnej misii?

1. Vyletieť
2. Preletieť
3. Doletieť
4. Prežiť

Major Components in Dry Air [vol%]

Zloženie?

# Čo je vôbec teplota?

Elektronická energia

Translačná energia

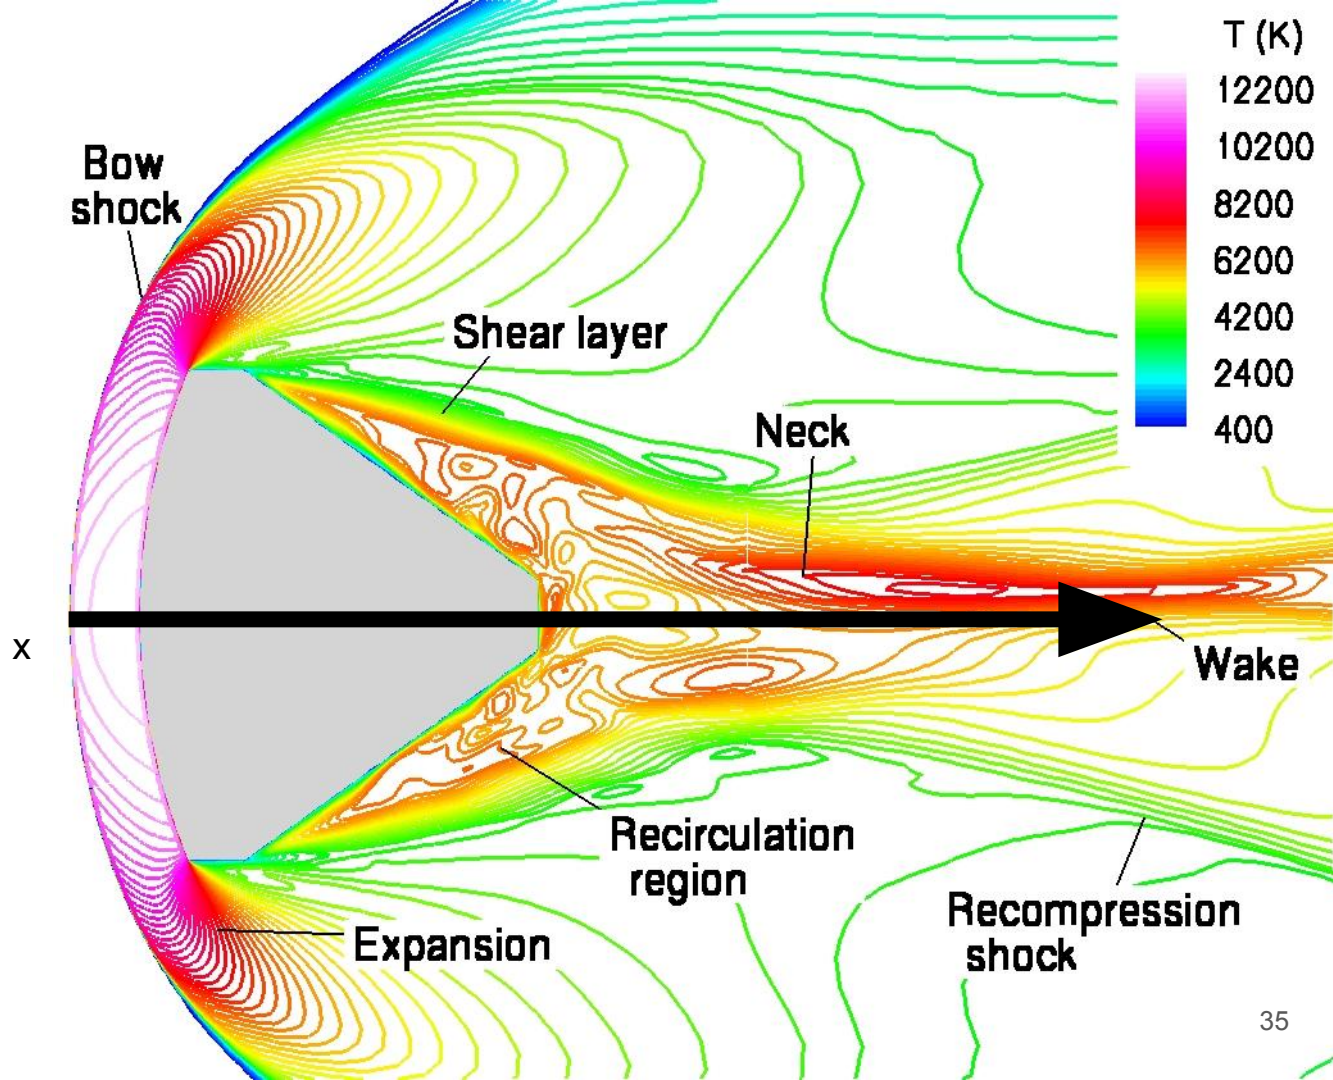

Rotačná energia

Vibračná energia

- Ak tieto nie sú v rovnováhe, koncept teploty stráca zmysel
- Teplota je potom definovaná ako elektronická, translačná, rotačná, vibračná a špecificky pre každý typ látky

Ako takéto niečo  
riešime?

Čo funguje v tekutinách?

# Čo funguje v tekutinách?

- Nevzniká nová hmota (1x)
- Nevzniká nová hybnosť (3x)
- Nevzniká nová energia (1x)
- Platia Maxwelllove rovnice (4x)

# Čo funguje v tekutinách?

- Nevzniká nová hmota (1x)
  - Nevzniká nová hybnosť (3x)
  - Nevzniká nová energia (1x)
  - Platia Maxwelllove rovnice (4x)
- 
- Chceme zistiť chemické zloženie, rýchlosti, teplotu, tlak...

# Čo funguje v tekutinách?

- Nevzniká nová hmota (1x)
  - Nevzniká nová hybnosť (3x)
  - Nevzniká nová energia (1x)
  - Platia Maxwelllove rovnice (4x)
- 
- Chceme zistiť chemické zloženie, rýchlosti, teplotu, tlak...
  - Tie sa líšia z miesta do miesta, ale možno si geometriu vieme rozdeliť na malé kúsky, v rámci ktorých sa moc nemenia

Tie rovnice riešime v týchto malých “bunkách” geometrie

# Bakalárska práca, 2018

# Hlavné požiadavky na design:

- Vedieť obehnúť Zem aspoň raz bez poriadneho pohonného systému
- Vedieť “sa odrážať” od atmosféry
- Hmotnosť do 500kg
- Cena do 120e6 dolárov
- Znovu-použiteľné

Credit: NASA

## “Sedem minút hrôzy”

- Posun kvôli vzdialenosti
- Neschopnosť komunikácie
- Obrovské zahrievanie

Vieme s tým niečo spraviť?

# Čo treba k úspešnej vesmírnej misii?

1. Vyletieť
2. Preletieť
3. Doletieť
4. **Prežiť**
